

Historic tramroads are very important in allowing us to understand the transportation routes created and utilised to sustain former industries, typically linking sources of raw materials, primary and secondary processing sites and onwards to other forms of transportation. These tramroads are now well used footpaths in our beautiful National Park.

What is the Tramroads Project?

Four years ago, the Park Society entered into a collaborative project with the Brecon Beacons National Park Authority, Clwyd Powys Archaeological Trust, and Cadw focused on improving our knowledge and understanding of the historic tramroads with a view to enhance the Historic Environmental Record and where appropriate take steps to protect them for future generations

So far we have:

- Carried out an extensive desk-based exercise to identify all the tramroads within the confines of the National Park.
- Developed a surveying methodology and data capture process.
- Secured the help of volunteers to carry out initial trial surveying of the Brinore Tramroad.

What's Next?

- Secure the services of a registered archaeologist.
- Train volunteers in surveying methodology and use of hand-held data collection app.
- Carry out survey of Brinore Tramroad.
- Carry out survey of other tramroads.
- Where appropriate develop cases to seek protection of artifacts and maybe whole sections of tramroad.

Volunteering to be part of the Tramroads Project is open to everyone. As a volunteer working on the Tramroads Project you will be covered under the Brecon Beacons National Park Authority Volunteer Framework. Whether your interests lie in working in a team surveying the tramroads or in helping to write scheduling cases to put before Cadw then there is a place for you on the project.

Beth yw'r Prosiect Tramffyrdd?

Pedair blynedd yn ôl, bu Cymdeithas y Parc yn rhan
o brosiect ar y cyd ag Awdurdod Parc Cenedlaethol
Bannau Brycheiniog, Ymddiriedolaeth Clwyd Powys a
Cadw, gan ganolbwyntio ar wella ein gwybodaeth a'n
dealltwriaeth o'r tramffyrdd hanesyddol, gyda'r bwriad
o wella'r Cofnod Amgylcheddol Hanesyddol a lle bo'n
briodol – cymryd camau i'w hamddiffyn ar gyfer
cenedlaethau'r dyfodol.

Hyd yn hyn mae gennym ni:

- Cynnal ymarfer desg helaeth i nodi'r holl dramffyrdd o fewn terfynau'r Parc Cenedlaethol
- Datblygu methodoleg arolygu a phroses cipio data
- Wedi sicrhau cymorth gwirfoddolwyr i gynnal arolwg cychwynnol o Dramffordd Brinore

Beth sydd nesaf?

- Sicrhau gwasanaethau archeolegydd cofrestredig
- Hyfforddi gwirfoddolwyr mewn methodoleg arolygu a defnyddio ap casglu data llaw
- Cynnal arolwg o Dramffordd Brinore
- Cynnal arolwg o dramffyrdd eraill
- Lle bo'n briodol, datblygu achosion i geisio diogelu arteffactau ac efallai rhannau cyfan o dramffordd

Mae gwirfoddoli i fod yn rhan o'r Prosiect Tramffyrdd yn agored i bawb.

Fel gwirfoddolwyr sy'n gweithio ar y Prosiect Tramffyrdd, byddwch yn dod o dan Fframwaith Gwirfoddolwyr Awdurdod Parc Cenedlaethol Bannau Brycheiniog. Os oes gennych ddiddordeb mewn gweithio mewn tîm yn arolygu'r tramffyrdd, neu mewn helpu ysgrifennu achosion amserlennu i'w rhoi gerbron Cadw, yna mae lle i chi ar y prosiect.
